Mathematics

## Mathematics

|  | Mathematics |  |
| :---: | :---: | :---: |
| Development Matters N3/4 | - Fast recognition of up to 3 objects, without having to count them individually ('subitising'). <br> - Recite numbers past 5. <br> - Say one number for each item in order: 1,2,3,4,5. <br> - Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle'). <br> - Show 'finger numbers' up to 5 . <br> - Link numerals and amounts: for example, showing the right number of objects to match the numeral, up to 5 . <br> - Experiment with their own symbols and marks as well as numerals. <br> - Solve real world mathematical problems with numbers up to 5 . <br> - Compare quantities using language: 'more than', 'fewer than'. <br> - Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: 'sides', 'corners'; 'straight', 'flat', 'round'. <br> - Understand position through words alone - for example, "The bag is under the table," - with no pointing. | - Describe a familiar route <br> - Discuss routes and locations, using words like 'in front of' and 'behind'. <br> - Make comparisons between objects relating to size, length, weight and capacity. <br> - Select shapes appropriately: flat surfaces for building, a triangular prism for a roof etc. <br> - Combine shapes to make new ones - an arch, a bigger triangle etc. <br> - Talk about and identifies the patterns around them. For example: stripes on clothes, designs on rugs and wallpaper. Use informal language like 'pointy', 'spotty', 'blobs' etc. <br> - Extend and create $A B A B$ patterns - stick, leaf, stick, leaf. <br> - Notice and correct an error in a repeating pattern. <br> - Begin to describe a sequence of events, real or fictional, using words such as 'first', 'then...' |
| Development <br> Matters <br> Reception | - Count objects, actions and sounds. <br> - Subitise. <br> - Link the number symbol (numeral) with its cardinal number value. <br> - Count beyond ten. <br> - Compare numbers. <br> - Understand the 'one more than/one less than' relationship between consecutive numbers. <br> - Explore the composition of numbers to 10. | - Explore the composition of numbers to 10. <br> - Automatically recall number bonds for numbers 0-10. <br> - Select, rotate and manipulate shapes in order to develop spatial reasoning skills. <br> - Compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can. <br> - Continue, copy and create repeating patterns. <br> - Compare length, weight and capacity. |
| ELG | ELG: Number <br> Children at the expected level of development will: <br> - Have a deep understanding of number to 10 , including the composition of each number; <br> - Subitise (recognise quantities without counting) up to 5; <br> - Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10 , including double facts. | ELG: Numerical Patterns <br> Children at the expected level of development will: <br> - Verbally count beyond 20, recognising the pattern of the counting system; <br> - Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity; <br> - Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed equally. |

The best in everyone"

## Mathematics: Termly Milestones

| Nursery Number |  |  |
| :---: | :---: | :---: |
| Year Group | Counting and Subitising | Comparing Number |
| Nursery <br> Autumn | Match and Sort <br> - Begin to ort objects according to colour, size or shape. <br> Link numerals and amounts/Counting: <br> - Showing the right number of objects to match the numeral for 1 and 2. <br> - Recite numbers to 5 <br> - Begin to show 'finger numbers' up to 5 when joining number songs and rhymes <br> - Say one number for each item in order: 1,2,3,4,5. <br> - Recite numbers beyond 5 <br> - Subitise small groups of objects. |  |
| Nursery Spring | Sorting and Matching: <br> - Find and match objects which are the same. <br> - Sort objects according to different criteria. <br> - Sort the same set of objects according to different criteria. <br> Link numerals and amounts/Counting: <br> Show 'finger numbers' up to 5 when joining number songs and rhymes <br> - Say one number for each item in order: 1,2,3,4,5. <br> - Know that the last number reached when counting a small set of objects tells you how many there are in total. <br> - Experiment with their own symbols and marks as well as numerals. |  |
| Nursery <br> Summer | - Fast recognition of up to 3 objects, without having to count them individually ('perceptual subitising'). <br> - Say when the number is the same. | - Solve real world mathematical problems with numbers up to 5 <br> - Compare quantities using language: 'more than', 'fewer than' |

## Mathematics: Termly Milestones

| Reception Number |  |  |  |
| :---: | :---: | :---: | :---: |
| Year Group | Counting and Subitising | Comparing Number | Numerical Patterns |
| Reception Autumn | Match and Sort <br> - Find and match objects that are the same. <br> - Sort objects according to colour, size or shape. <br> Recognising 123 by counting or subistising: <br> - Identify representations of 1,2 and 3 <br> - Match number names we say to to numerals and quantities <br> - Count up to 3 objects in different arrangements by touching <br> - Use their own mark making to represent 1, 2 and 3 <br> Recognise a set of 4 and 5 objects by counting or subitising: <br> - Identify representations of 4 and 5 <br> - Match number names we say to numerals and quantities. <br> - Count up to 4 and 5 objects in different arrangements by touching <br> - Use their own mark making to represent 4 and 5 | - Use the vocabulary fewer, the same and more to compare groups of objects. <br> Compare 123: <br> - Understand that as we count, each number is one more than the one before. <br> - Understand that as we count back, each number is one less than the one before. <br> - Make comparisons between groups of 1,2 and objects. Explore 1 more or 1 less than numbers to 5: <br> - Understand the 'one more than/one less than' relationship between consecutive numbers.to 5 <br> - To compare groups of identical of objects using accurate mathematical vocabulary <br> - To compare groups of objects that are arranged differently and with objects of different sizes | Composition of 1,2 and 3: <br> - Explore and notice the different compositions of 2 and 3. |
| Reception Spring | Recognise 6 and 7 by counting or subitising: <br> - Identify representations of 6 and 7 <br> - Count up to 6 and 7 objects in different arrangements by touching <br> - Match number names we say to numerals and quantities. <br> - Use their own mark making to represent 6 and 7 <br> Recognise 6 and 7 by counting or subitising: <br> - Explore the composition of 6 and 7 <br> Recognise and represent 8 and 9: <br> - Identify representations of 8 and 9 <br> - Match number names we say to numerals and quantities. <br> Recognise and represent 10: <br> - Identify representations of 10 <br> - Match number names we say to numerals and quantities. | Compare numbers to 5: <br> - Make comparisons between groups of 0-5 objects. <br> - Use the number name zero and numeral 0 accurately. <br> - To compare groups identical of objects and of objects that are arranged differently and with objects of different sizes. <br> Compare numbers to 10 : <br> - Make comparisons between groups of 0-10 objects by counting and comparing where they fall in the counting order <br> - Make comparisons between groups of objects by lining them up next to each other. | Composition of numbers: <br> Explore and notice the different compositions of 4 and 5. <br> - Explore the composition of 6 and 7 <br> - Explore the composition of 8 and 9 <br> - Begin to explore the composition of 10 <br> Number Bonds to 10: <br> - Explore number bonds to 10 using real objects <br> - Find how many more to make 10 |

## Mathematics: Termly Milestones

## Mathematics: Termly Milestones

| Nursery Shape, Space and Measure |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Year Group | Positional and Direction | Measure | Pattern | Shape and Space |
| Nursery <br> Autumn | - Understand position through words alone - for example, "The bag is under the table," - with visual cues | - Make comparisons between objects relating to size and length <br> - Make comparisons between objects relating to size, length, weight and capacity. | - Talk about and identifies the patterns around them. For example: stripes on clothes, designs on rugs and wallpaper. Use informal language like 'pointy', 'spotty', 'blobs' etc. | - Select shapes appropriately: flat surfaces for building, a triangular prism for a roof etc. <br> - Notice and talk about shapes in the environment <br> - Talk about and explore 2D shapes (for example, circles, rectangles, and triangles) using informal and mathematical language: 'sides', 'corners'; 'straight', 'flat', 'round |
| Nursery Spring |  | Time and Sequencing : <br> - Begin to describe a sequence of events, real or fictional, using words such as 'first', 'then...' | - Extend and create ABAB patterns - stick, leaf, stick, leaf. | - Talk about and explore 3D shapes using informal and mathematical language: 'sides', 'corners'; 'straight', 'flat', 'round'. <br> - Combine shapes to make new ones - an arch, a bigger triangle etc. |
| Nursery Summer | - Describe a familiar route using spatial words. <br> - Discuss routes and locations, using words like 'in front of' and 'behind'. <br> - Understand and use positional language through words alone. | Time: <br> - Begin to describe a sequence of events, real or fictional, using words such as 'first', 'then...' |  |  |

## Mathematics: Termly Milestones

| Reception Shape, Space and Measure |  |  |  |
| :---: | :---: | :---: | :---: |
| Year Group | Measure | Pattern | Shape and Space |
| Reception <br> Autumn | - Compare and order objects according to their size. <br> - Use mathematical language to describe size <br> Compare length, weight, and capacity: <br> - Compare length using appropriate mathematical vocabulary <br> Time and Sequencing: <br> - Use time related vocabulary to talk about their day | - Copy, continue and create simple repeating patterns. <br> - Explore AB patterns in a range of contexts. | - Find 2D shapes within 3D shapes. |
| Reception Spring | Compare length, weight, and capacity: <br> - Compare mass using appropriate mathematical vocabulary. <br> - Compare the capacity of different containers. | - Talk about patterns in the environment. <br> - spatial reasoning skills. <br> - Copy and continue repeating patterns with varying rules (including $A B, A B B$ and $A B B C$ ) | Rectangles and Squares: <br> - Recognise shapes in everyday objects and the environment. <br> - Describe some properties of rectangles and squares <br> Shape and Spatial Reasoning: <br> - Select, rotate and manipulate shapes in order to develop spatial reasoning skills. |
| Reception Summer | Compare length, weight and capacity. <br> - Use comparative language accurately. <br> - Make a reasonable estimate about capacity. <br> - Make a reasonable estimate about length of something. (non-standard units such as footsteps) | - Continue and create repeating patterns with varying rules (including $A B, A B B$ and ABBC) | - Copy complex 2D pictures with 3D resources <br> Compose and decompose shapes <br> - Investigate how shapes can be combined to make new shapes. <br> - Identify shapes within shapes. <br> - Predict what shapes they will make when paper is folded. |
| Y1 Links | NC Year 1 <br> Pupils should be taught to: <br> - Compare, describe and solve practical problems for: lengths and heights [for example, long/short, longer/shorter, tall/short, double/half], mass/weight [for example, heavy/light, heavier than, lighter than], capacity and volume [for example, full/empty, more than, less than, half, half full, quarter), time [for example, quicker, slower, earlier, later] Measure and begin to record the following: lengths and heights, mass/weight, capacity and volume, time (hours, minutes, seconds) Sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening] <br> - Recognise and use language relating to dates, including days of the week, weeks, months and years <br> - Tell the time to the hour and half past the hour and draw the hands on a |  | NC Year 1 <br> Pupils should be taught to: <br> - Recognise and name common 2-D and 3-D shapes, including: 2-D shapes [for example, rectangles (including squares), circles and triangles] and 3-D shapes [for example, cuboids (including cubes), pyramids and spheres]. <br> - Describe position, direction and movement, including whole, half, quarter and threequarter turns |
|  | United Learning <br> The best in everyone <br> Ambition <br> Confidence | - Creativity ■ | Respect Enthusiasm $\quad 7$ |
